

FROM USER STORIES TO BUILDABLE GITHUB WORK

USER STORIES, ACCEPTANCE
CRITERIA, OWNERSHIP, PROOF

BY THE END OF CLASS, YOUR TEAM SHOULD HAVE:

1 CLEAR SPRINT GOAL

1-3 MVP ISSUES

AN OWNER ON EVERY ACTIVE ISSUE

DEFINITION OF DONE ON EVERY ACTIVE ISSUE

1 FIRST-SLICE ISSUE IN PROGRESS

A BRANCH AND AT LEAST ONE COMMIT

A SPRINT PACKET STARTED

THE RULE FOR TODAY

01

ONE USER

02

ONE ACTION

03

ONE RESULT

04

ONE OWNER

05

**ONE DONE
CHECKLIST**

06

ONE PROOF LINK

BOTTOM LINE:

IF IT ISN'T LINKED, IT DIDN'T HAPPEN.

USER STORY, KEEP IT TINY

FORMAT:

AS A [USER], I WANT [ACTION], SO THAT [RESULT].

FORMAT:

AS A STUDENT, I WANT TO UPLOAD MY FILE, SO THAT I CAN SUBMIT MY WORK ONLINE.

RULE:

ONE SENTENCE ONLY. NO ESSAY. NO POETRY. NO STARTUP TED TALK.

ACCEPTANCE CRITERIA = DEFINITION OF DONE

DO NOT CREATE 3 SEPARATE
DOCUMENTS.

USE THIS:

- USER STORY = 1 SENTENCE
- ACCEPTANCE CRITERIA = DEFINITION OF DONE
- GITHUB ISSUE = WHERE THE WORK LIVES

DEFINITION OF DONE EXAMPLES:

- PAGE LOADS
- USER CAN SUBMIT VALID INPUT
- INVALID INPUT SHOWS ERROR
- SCREENSHOT OR DEMO CLIP ATTACHED
- OWNER ASSIGNED

GOOD ISSUE VS BAD ISSUE

BAD

**“WORK ON
LOGIN”**

BETTER

TITLE:

USER CAN SIGN UP WITH EMAIL

WHY:

NEW USERS NEED AN ACCOUNT

DOD:

- **FORM LOADS**
- **VALID EMAIL WORKS**
- **INVALID EMAIL SHOWS MESSAGE**
- **SCREENSHOT ATTACHED**
- **OWNER ASSIGNED**

THE GITHUB WORKFLOW

ISSUE → BRANCH →
COMMIT → PR →
MERGE

GOOD ISSUE

- WHAT
- WHY
- DEFINITION OF DONE
- OWNER

GOOD PR

- WHAT CHANGED
- WHY
- HOW TESTED
- EVIDENCE

BOARD CLEANUP RULES

YOUR BOARD SHOULD BE SIMPLE:

- TO DO
- DOING
- DONE

EVERY ACTIVE CARD MUST HAVE:

- ONE OWNER
- A CLEAR DOD
- A REALISTIC SIZE

IF IT'S BLOCKED:

- MARK IT
- SAY WHY
- NAME WHAT IS NEEDED

PICK THE FIRST SLICE

BUILD THE SMALLEST THING A STRANGER CAN UNDERSTAND IN 30 SECONDS.

GOOD FIRST SLICES

- ONE FORM SUBMITS
- ONE BUTTON CREATES ONE RECORD
- ONE PAGE LOADS REAL DATA
- ONE LOGIN PATH WORKS
- ONE SEARCH RETURNS RESULTS

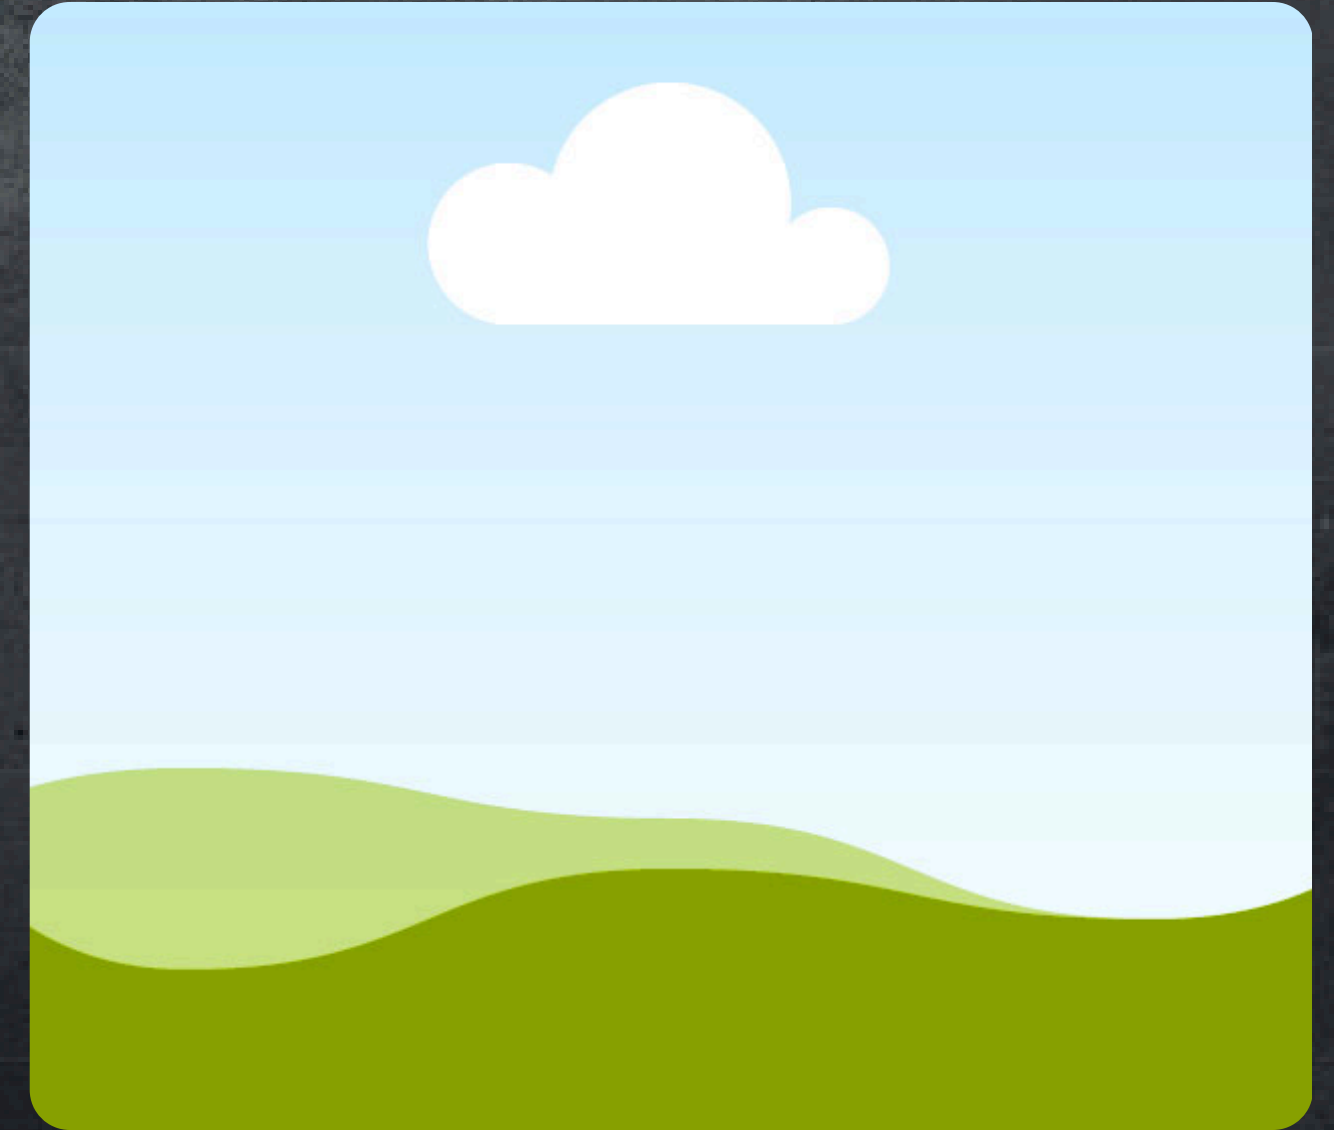

BAD FIRST SLICES

- ENTIRE BACKEND
- ALL CRUD
- FULL AUTH SYSTEM
- COMPLETE DASHBOARD
- "THE WHOLE APP"

PROOF MATTERS

A FEATURE IS NOT
DONE UNTIL YOU
CAN PROVE IT
WORKS.

PROOF CAN BE:

- SCREENSHOT
- SHORT VIDEO
- PR WITH “HOW TESTED”
- DEMO CLIP
- REPRODUCIBLE TEST STEPS

ASK YOURSELF:

- WHAT DID THE USER DO?
- WHAT HAPPENED?
- WHAT PROVES IT?

WHAT YOU MUST LEAVE CLASS WITH

**BEFORE YOU LEAVE TODAY, YOUR
TEAM MUST HAVE:**

- 1 CLEANED-UP FIRST-SLICE ISSUE
- OWNER ASSIGNED
- DEFINITION OF DONE WRITTEN
- BOARD UPDATED
- BRANCH CREATED
- WORK STARTED
- SPRINT PACKET STARTED

INDIVIDUAL EXPECTATION:

- EACH MEMBER WILL NEED 2–3 RECEIPTS BY FRIDAY.

FRIDAY SUBMISSION

ONE TEAM SPRINT PACKET INCLUDES:

- DEMO LINK OR SHORT VIDEO
- 3-BULLET DEMO SCRIPT
- BOARD SNAPSHOT
- SHIPPED / BROKE / NEXT / RISKS

EACH STUDENT ADDS RECEIPTS:

- ISSUE LINK
- PR LINK
- REVIEW COMMENT
- SCREENSHOT
- CI/CHECK RUN

REMINDER:

IF IT ISN'T LINKED, IT DIDN'T HAPPEN.

IN-CLASS WORK TIME

TEAM CHECKLIST

- 1 WRITE 1–3 USER STORIES MAX
- 2 CHOOSE 1 STORY FOR THIS WEEK
- 3 TURN IT INTO A REAL ISSUE
- 4 ADD OWNER + DOD
- 5 START THE BRANCH
- 6 BUILD THE FIRST SLICE
- 7 CAPTURE PROOF
- 8 START THE SPRINT PACKET
